ARTICLE 6 UNION REPRESENTATION

6.1 UNION OFFICIALS:

- a. Management agrees to recognize L.I.U.N.A. National Officers and Representatives, the local president, elected officials, and individual stewards as specified in this agreement.**
- b. The agency agrees to negotiate with Local 1636 on all negotiable matters required by law affecting the employees' conditions of employment or, as applicable, on the implementation of any new policy or change in policy affecting the employees' conditions of employment.**
- c. The local president of the Union or his/her designated representative will be spokesperson for the Union and shall have the right to consult and negotiate with Management on any and all matters covered by this agreement. The contact for the president is through the Labor Relations Specialist as the designated representative for the Adjutant General for labor-management relations.**

d. The Union President will be the Labor Relations Specialists' point of contact for matters pertaining to the entire bargaining unit and matters pertaining to his/her specific branch of service. The Executive vice-president will be the point of contact for the other branch of service.

e. (1) Upon being notified by the Employer of a proposed new policy or practice, or a proposed change to existing policy or practice, the Union shall have the opportunity to represent the bargaining unit.

(2) Representation shall occur at the lowest level at which a matter can be resolved, and the initial attempt at resolution normally should occur between the Union steward and the first level supervisor. If either party believes resolution of a matter of concern is outside its jurisdiction, the matter shall be referred to those officials of the Employer or the Union who may have the authority to act upon the problem. Management recognizes that sharing ideas may save time and money. At Management's discretion, the Union will be consulted before drafting of new or changed policies or practices. The parties agree that the Union shall at all times have the right to offer proposals and ideas to the lowest level Management official. A copy will be provided to the HRO or his authorized representative whether in written or oral form.

f. The Union will supply the Human Resources Officer in writing, and shall maintain on a current basis, a list of authorized stewards and officers and the group of technicians each represents. The Human Resources Office will publish a list of approved stewards and the technicians they represent for distribution and posting on appropriate bulletin boards where there are four or more technicians employed.

g. If requested by the technician concerned, Union officers and stewards will be allowed a reasonable amount of official time from their assigned duties without loss of pay to receive, investigate, prepare and present employee grievances, appeals, or complaints, or to discuss with appropriate officials of the Employer other matters related to personnel policies, practices, and working conditions affecting bargaining unit employees. The Union agrees that it will guard against the use of excessive time whenever such representational duties are being performed during regular hours. Reasonable time for receiving, investigating, preparing, and presenting a complaint, grievance, or appeal must necessarily depend on the facts and circumstances of each -- e.g., number and nature of allegations, number and complexity of supporting specifics, the volume of supporting evidence, availability of documents and witnesses and similar considerations. A reasonable amount of official time for representational purposes will be granted. A Union representative required to travel for representational purposes in an appellate proceeding will be granted a reasonable amount of official time for this purpose.

h. Union officers and stewards, when they are requested to leave their worksite to perform representational duties, shall first obtain permission from their immediate supervisor, or in the absence of the immediate supervisor, the next higher level of supervision. Such permission will normally be granted unless compelling circumstances preclude leaving at that particular time. If permission is denied, the supervisor will inform the Union representative of the reason for the denial and of the earliest possible time when Union representative can leave his/her worksite. Union officials and stewards will report back to their supervisors when they return from their representational duties. If the Union representative must meet with supervisors, Management officials, or employees in another shop or work-site, he/she will insure that these individuals are available to meet before leaving his/her work area.

i. Any bargaining unit employee serving as a Union negotiator in collective bargaining sessions with the Employer shall be authorized official time for such purposes, including attendance at impasse proceedings. The number of bargaining unit employees for whom official time is authorized for negotiations shall not exceed the number of individuals designated as representing the Employer for such purposes.

j. When the Employer calls a meeting with Union representatives or arranges such a meeting at the request of the Union to discuss matters of mutual interest, the Union representatives will be granted official duty time for such meetings.

k. In the interest of efficient conduct of Government business and the economical use of Government time, and in order to draw a reasonable distinction between representational and non-representational duties, those activities concerned with internal management of the Union, or solicitations of membership, collection of dues, campaigning for Union officers, conduct of elections for Union officers and distribution of literature will be conducted outside regular working hours. Upon advance written request and subject to normal security restrictions, the Union shall be granted permission to conduct membership drives of up to thirty (30) days duration each per year during the non-work status of the employees involved, provided there is no interference with the work of the Employer. Such membership drives shall not exceed two per calendar year.

l. There shall be no restraint, coercion, or discrimination against any Union official because of the performance of duties in consonance with this agreement and the Civil Service Reform Act.

6.2 STEWARDS:

a. Management will recognize the individual stewards authorized by this agreement.

c. Stewards in the Air National Guard will be limited to five (5) total.

d. The steward will represent the employees of their designated areas in dealings with supervisors about the application of personnel practices and other matters affecting working conditions in the designated area. Officers or stewards as assigned are authorized to represent individuals in other parts of the bargaining unit in accordance with the following criteria:

- (1) The technician requests and justifies alternative representation to the Union President.

(2) Union steward will not cross the vice-presidential geographical areas as listed below.

(4) In order to be fair to the Union, Management and the individual concerned, the Union agrees that it will guard against the excessive use of the same representative for this purpose.

e. Area vice-presidents of the Union will act as chief stewards and work with the next higher level of Management in their designated area. Area vice-presidents when acting as chief stewards will attempt to resolve conflicts that could not be settled between stewards and the first level supervisors. Conflicts that cannot be resolved by a chief steward will be referred to the Union president.

f. The Union will appoint a substitute steward for any steward that will be on an extended absence and will notify the Human Resources Officer in writing, of the change and effective date.

g. Immediate supervisors and stewards should endeavor to establish a good day-to-day relationship. In their day-to-day relationship, immediate supervisors should endeavor to keep stewards informed of matters affecting technicians in their employment area. In their discussions of personnel policies, practices and working conditions with the immediate supervisor concerned, stewards will be recognized as an official representative of the Union with equal status.

6.3 OFFICIAL TIME:

a. Union officials and stewards will be credited with official time when performing representational duties. When such duties are performed away from their regular place of business they will be paid travel and per diem IAW VOL II of the JTR by the employer subject to prior approval by the HRO.

b. The Union agrees that it will guard against excessive use of this provision by using the closest representative consistent with good representation.

The matters requiring the need of the meeting will be specified in advance.**

(1) The negotiating teams of each party shall consist of no more than five (5) members.

(2) The chief spokesperson for each party will speak for their respective teams, but may at their discretion allow their other team members to participate in any discussion. A chief spokesperson shall be designated in writing by each party.

(3) Names of the members on each negotiating team will be exchanged formally by the parties in writing no later than three (3) calendar days prior to the beginning of negotiations. Any changes regarding team membership will be submitted to the other party no later than one (1) day prior to the next negotiation session.

(4) Negotiations will begin on a mutually agreed date no later than the thirty (30) days from receipt of proposals. The employer will furnish a room suitable for negotiations, and will allow both parties to caucus.

(5) All negotiations and reasonable time to prepare shall be conducted on official duty time. This shall include a reasonable amount of time to prepare and present matters to the Federal Mediation and Conciliation Service.

(6) Upon reaching agreement on any supplement or amendment to the contract, the chief spokespersons shall signify agreement by initialing the agreed upon item. Upon reaching agreement on all supplements or amendments, the agreement shall be signed by the members of both negotiating committees, ratified by the Union members in a manner prescribed by the Union, and upon ratification, signed by the Union President and the Employer. It is recognized by the parties that all supplements or amendments to this agreement are subject to review for legal and regulatory compliance by DOD. Any supplements or amendments will remain effective concurrent to the basic agreement.

(7) Upon reaching agreement on a proposed new policy or practice, or a proposed change to existing policy or practice affecting the conditions of employment of bargaining unit employees, the spokespersons of the Employer and the Union shall sign the agreement reached, with a copy of the agreement provided to both parties.

8.3 NEGOTIATIONS OF AGENCY POLICY AND PRACTICES: Upon being notified by the Employer of a proposed new policy or practice, or a proposed change to existing policy or practice, the Union shall have ten (10) work days in which to review the Employers' proposal and advise the Employer of its intentions. Failure to notify the HRO will be construed as an acceptable change. If the Union has questions regarding the proposal, or desires clarification, the Union shall make a request to the HRO to meet to discuss and clarify the proposal. The Union will indicate the specific area(s) requiring clarification or discussion, and the Employer will arrange a meeting at a mutually agreed upon time. If after discussion, the proposal is acceptable to the Union, the Union shall notify the Employer of this fact. If the proposal is unacceptable after discussion, the Union shall submit a written request to negotiate the proposal to HRO within five (5) workdays. To facilitate the negotiating process, all requests for negotiations shall be accompanied by a copy of the specific counterproposal desired by the Union.

8.4 UNION EMPLOYER MEETINGS:

a. The parties agree that meetings between representatives of the Employer and the Union shall be held as the need arises for the purposes of exchanging information of mutual interest; attempting to resolve problems concerning the working environment of bargaining unit employees; administering this agreement; and conferring on personnel policies, practices or other matters affecting the working conditions of bargaining unit employees. Union-Management meetings shall in no way nullify or abrogate the right of the Union to negotiate on all negotiable matters. Such meetings shall be conducted in an atmosphere that will foster mutual respect. In the interest of efficient use of personnel resources, the parties agree that the number of Union representatives in attendance at such meetings shall be no more than five (5) to effectively transact the business of the meeting. Management and the Union will have an equal amount of representatives each to the Union-Management negotiation meetings. Union representatives will be on official time for the negotiation meetings.

b. Joint Union-Employer meetings shall be held at mutually agreeable times upon request by either party. Either party desiring to meet with the other shall give advance notice to the other party. Specific item(s) for discussion normally will be provided in advance of the meeting by either party, although items not submitted may be discussed if it is mutually agreed to do so. A summary of the meeting reflecting items discussed and decisions reached, shall be furnished to the Union by the Employer when the parties mutually agree in advance that a written record of the meeting is necessary. New or changed policy proposals which cannot be readily agreed to at a Union-Employer meeting may be submitted for negotiation in accordance with negotiation procedures established in this agreement. Union-Employer meetings will be conducted during regular working hours, (Mondays through Fridays from 0800 to 1630) with Union officials in attendance authorized official time. Emergency meetings will be arranged for the convenience of both parties involved as soon as possible after a request by either party is received, and such requests shall indicate the subject matter for discussion.

ARTICLE 9 - GRIEVANCE PROCEDURES

9.1 GENERAL:

a. Scope: This negotiated grievance procedure shall apply to matters of concern or dissatisfaction regarding; the interpretation, application or violation of law, regulation or this agreement; published policies; conditions of employment; prohibited personnel practices; or relationships with supervisors and Management officials. To accomplish this, every reasonable effort will be made to settle grievances expeditiously and at the lowest possible level of supervision.

c. Grievance Coverage:

(1) Except as provided in this article, any matter of concern or dissatisfaction to a technician, which is subject to the control of management, and is related to conditions of employment of bargaining unit employees can be grieved through this procedure.

(2) This does not apply to:

(h) Matters for which no personal relief to an employee is appropriate, as agreed upon by Management and the Union.

- (4) Not timely filed; or**
- (5) When corrective action requested is disciplinary action against another employee or supervisor.**

9.2 GRIEVANCE PROCEDURES:

1. The employee will bring the complaint to a Union official or will present the complaint to the first line supervisor.

2. The Union official will evaluate the merits of the complaint and advise the employee whether to proceed. Any grievance shall be brought within 15 working days after the employee has knowledge of the original incident or action that gave rise to the grievance.

3. If the complaint is to proceed, the employee initiates the informal grievance form, HR Form 771-1, and notifies the first-level supervisor of the filing of the grievance and the need for official time. The first-level supervisor will contact the Labor Relations Specialist in the Human Resources Office to determine the lowest level of supervision that can address the grievance, date and forward the grievance to that lowest level of supervision.

4. The grievance will be taken to the lowest level of resolution for discussion. The lowest level of resolution will contact the grieving party. A discussion will take place within 10 working days of the initial notification to the first-level supervisor of the intent to grieve. If the grievance is resolved at this stage, the resolution will be documented and signed by both parties.

5. If resolution is not agreed upon, the parties have five days to enter into facilitated discussion. A facilitator mutually agreed upon will be found within the organization or from an external source. This facilitator might be another supervisor, a Union official, a co-worker, or a person trained in mediation. If the grievance is resolved at this stage, the resolution will be documented and signed by both parties.

6. If there is no resolution as a result of the facilitated discussion, the complaint will be forwarded for review to the highest level of supervision below the deciding official prior to forwarding to the deciding official as a formal grievance. This level of supervision may recommend a second facilitated discussion, with the agreement of both parties. This level of supervision has five working days to decide to attempt a second facilitated discussion or forward the complaint to the deciding official as a formal grievance. If the grievance is resolved at this stage, the resolution will be documented and signed by both parties. If there is no resolution, the grievance is forwarded to the deciding official as a formal grievance.

7. If either party in the grievance procedure does not agree to a facilitated discussion as a result of their initial meeting, as described in step 5, the party refusing facilitated discussion will be represented in a facilitated discussion as follows:

a. Management will be represented by the next higher level of supervision, unless the next higher level of supervision is the deciding official.

(1) If the next higher level of supervision is the deciding official, the complaint will be forwarded as a formal grievance.

b. The employee will be represented by a Union official. The result of the facilitated discussion will be implemented only with the concurrence of the employee. If the grievance is resolved at this stage, the resolution will be documented and signed by both parties. If resolution is not achieved, the complaint is forwarded to the highest level of supervision below the deciding official for review (Step 6).

8. Once a grievance is forwarded to the deciding official, it is considered a formal grievance. Within five working days the deciding official will a) render a decision or b) suggest and participate in alternative dispute resolution as signatory in any resolution, or c) appoint an alternate deciding official with signatory authority to participate in alternative dispute resolution, or d) without resolution, recommend arbitration to the Adjutant General. The grievant will either a) accept the deciding official's decision, or b) agree to alternative dispute resolution. If the grievance is resolved at this stage, the resolution will be documented on HR Form 771-2 and signed by both parties. If there is no resolution, the Union may invoke arbitration on behalf of the grievant by completing HR Form 771-3.

9. The facilitated discussions referred to in steps 5, 6, 7, and 8 shall commence within 15 working days from the time parties agree to enter into facilitated discussion. This time may be extended under extenuating circumstances by mutual agreement.

10. Working days means the working days of the grievant.

11. Alternative dispute resolution refers to any consensual process leading to resolution of a dispute such as facilitation, mediation, or last-chance agreements.

12. Any process that could lead to adverse or disciplinary action should involve a mediator rather than a facilitator from within the organization.

9.3 PROCEDURES FOR UNION OR EMPLOYER GRIEVANCE:

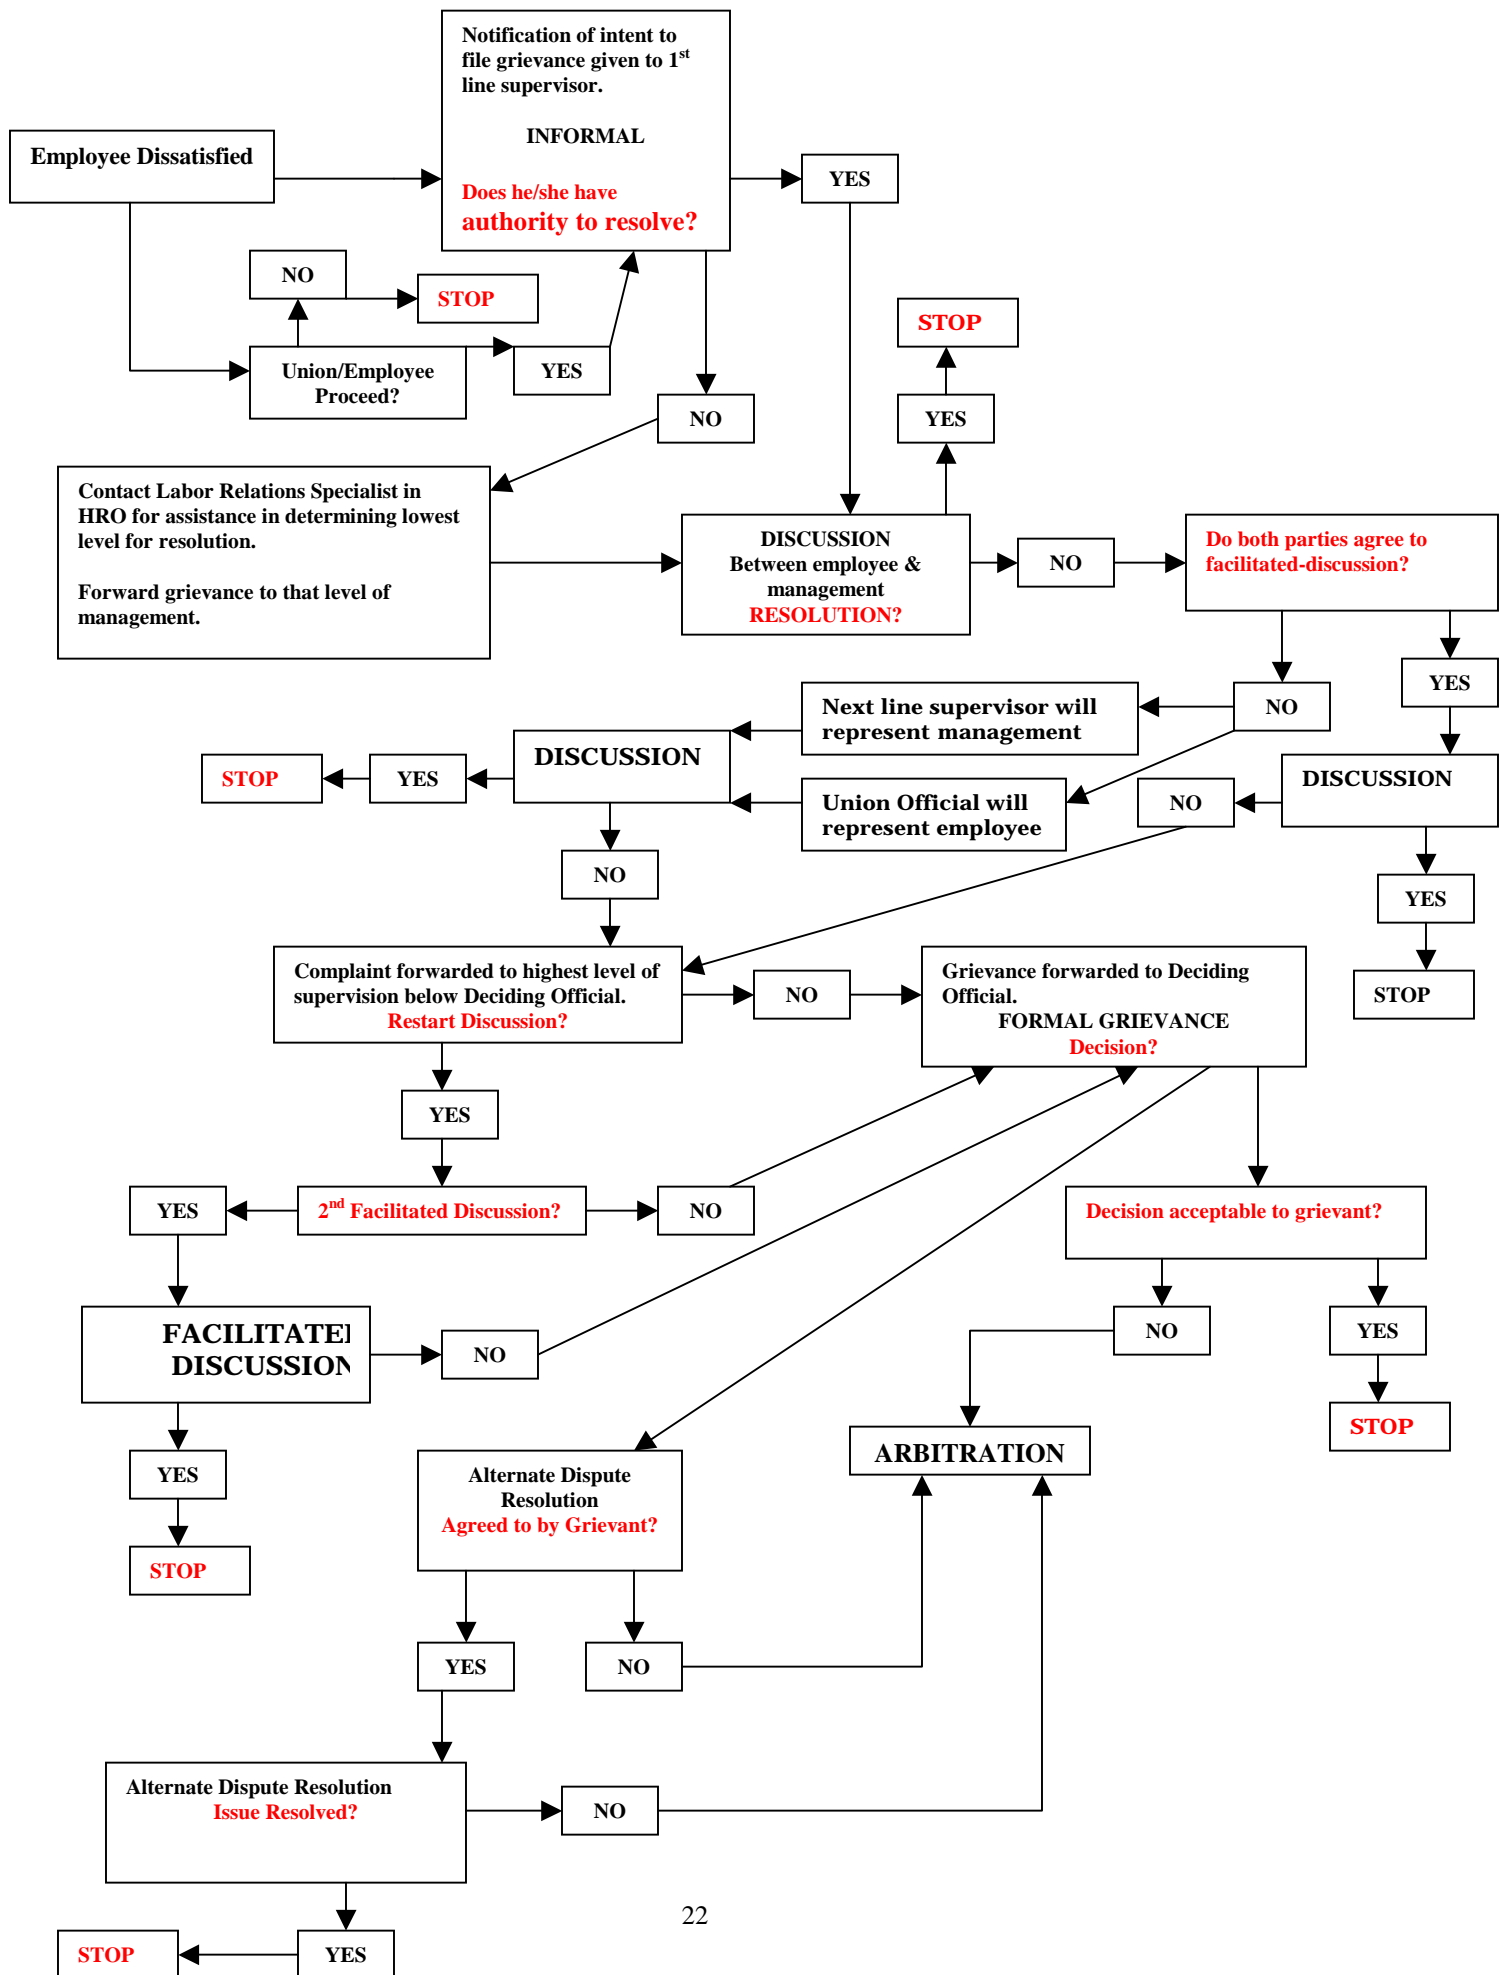

1. Either the Union or Management may file grievances:

a. Management grievances may only be filed with and by the HRO on behalf of Management. HRO should attempt to resolve the grievance at the lowest possible level in an informal manner.

b. Any Union official (this includes Union stewards) may start an informal grievance at step 2 in 9.2 however before a Union grievance can go formal in step 8 of 9.2, the Union president or executive vice president must file a formal notification to grieve with the HRO.

c. If discussion regarding either Union or Management's grievance fails to resolve the issue either party may request arbitration within twenty (20) working days after discussion has failed.

9.4 GRIEVANCE STEP ADVANCEMENT: Failure to observe the time limits for any step in the grievance procedure shall entitle the grievant to advance the grievance to the next step. Failure of the grievant to observe the time limits at any step of the procedure will have the effect of canceling the grievance as untimely. All time limits of this article may be extended by mutual consent. A grievance may be withdrawn by the proponent at any time.

ARTICLE 10 - ARBITRATION

10.1 GENERAL:

- a. Any grievance not satisfactorily settled under the above procedure shall be subject to binding arbitration which may be invoked by either the Union or the NMNG.**
- b. The Human Resources Office, upon request by either Management or Union, will request a list of arbitrators. All requests for arbitration must be submitted within twenty (20) work days of the decision and signed by the Union President or the Adjutant General or his designee.**

10.2 SELECTING THE ARBITRATOR:

- a. Within five (5) work days from the date of receipt of request, the parties shall attempt to select an arbitrator. If the parties are unable to agree upon an arbitrator, they shall immediately request the Federal Mediation and Conciliation Service to submit a list of seven (7) impartial persons qualified to act as arbitrators. A brief statement of the nature of the issues in dispute will accompany the request to enable the service to submit the names of arbitrators qualified for the issues involved. The request will include a copy of the bargaining agreement. The parties shall meet within five (5) work days after receipt of such list to select an arbitrator. If they cannot agree upon one of the listed persons, Management and the Union will each strike one arbitrator's name from the list of seven and shall repeat this procedure until only one name remains. The remaining name shall be the only and duly selected arbitrator. The winner of a coin toss will determine which party strikes first.**
- b. The party requesting arbitration may withdraw the request at any time prior to the actual convening of a hearing or submission of the case to the arbitrator. However, once a definite hearing date has been established with an arbitrator, it is agreed that the party requesting such a withdrawal will make every reasonable effort to notify the other party and the arbitrator of its desire as far in advance of the scheduled hearing date as possible.**
- c. In the event that an arbitrator's costs are incurred due to the late withdrawal of the request for arbitration, the party requesting withdrawal shall pay such costs. In the event that costs are incurred due to postponement of arbitration hearing caused by Management failure to release a witness, Management will bear the cost of the postponement.**

10.3 ARBITRATION PROCESS:

- a. Fees and expenses of the arbitrator shall be paid by the losing party including the cost of transcript if required by the arbitrator. The Employer and the Union shall share equally the expense of any mutually agreed upon services in connection with the arbitration. The parties shall bear their own individual services expenses during the arbitration proceedings. Costs of the arbitration will be shared equally in the event the decision renders no winner/no loser.**
- b. Both parties will request the arbitrator to render his decision as quickly as possible, but no later than thirty (30) days after the conclusion of the hearing.**

- c. The provisions of 32 USC 709e, United States Code are excluded from arbitration, in that they have other statutory appeal rights.
- d. The arbitration hearing will normally be conducted during duty hours. Technicians required to attend the hearing as complainants, witnesses, etc., will attend without loss of pay or leave.
- e. A submission to arbitration hearing should be used when a formal hearing is necessary to develop and establish facts relevant to the issue. In this case, a formal hearing is convened and conducted by the arbitrator. The arbitration hearing shall be held on Employers' premises during the regular day-shift hours of the normal basic work week. The aggrieved employee, his/her Union representative, and the employee witnesses who have direct knowledge of the circumstances and the factors bearing on the case shall be excused from duty for a reasonable period of time without loss of pay or charge to annual leave to prepare for arbitration. The aggrieved employee and his/her Union representative will be granted official duty time to participate in the arbitration proceeding. The Employer agrees to assure that all witnesses otherwise in a duty status will be readily available to testify as required by the Arbitrator. Employee participants assigned to tours of duty other than the regular day-shift will be temporarily placed on the day-shift for the day(s) of the arbitration hearing. Travel and per diem shall be borne by the employer but not to exceed the maximum allowed in Vol. II, Joint Travel Regulation.
- f. Following selection of the arbitrator and indication of his/her availability, the parties will attempt to prepare a joint letter submitting the issue or issues to be decided by the arbitrator. Such letter(s) shall present the matter(s) upon which arbitration is sought and shall include the agreement provisions governing the arbitration. If the parties fail to agree on a joint submission of the issue(s) for arbitration, each party will submit, in writing, a statement of what they believe to be the issue(s) to the other party and to the arbitrator. The arbitrator shall then determine the issue(s) to be decided, to include any questions.
- g. When the employer and the Union agree to the facts at issue and believe that an arbitration hearing would be unnecessary, the parties may submit in writing a joint stipulation of facts to the arbitrator with a request that a decision be rendered based upon the facts jointly presented.
- h. The arbitrator shall have no authority to add to, change, modify, alter, or delete any provision of this agreement. The authority of the arbitrator will extend to the interpretation of agency regulations, provision of law, or regulations of appropriate authorities outside the agency. The arbitrator will make no findings of fact, recommendations, or interpretations of this agreement except to the extent necessary to resolve the issue(s) submitted or determined.
- i. The arbitrator's decision shall be binding on the parties. However, either party may file exceptions to the arbitration award in accordance with the provisions of Title VII of the Civil Service Reform Act and the Rules and Regulations of the Federal Labor Relations Authority. If either party files an exception to the Authority, a copy will be submitted to the other party.

ARTICLE 11 - USE OF OFFICIAL TIME

11.1 OFFICIAL TIME: With supervisory approval in consideration of mission, Union officers and officials, including stewards, shall be permitted reasonable time during working hours without loss of leave or pay to effectively represent employees in accordance with this Agreement. Reasonable time for representational functions is applicable to the following situations and conditions;

- a. All negotiations shall be conducted on official duty time.**
- b. Reasonable time for receiving, investigating, preparing and presenting a complaint, grievance, or appeal must depend on the facts and circumstances of each case.**
- c. Reasonable time for an authorized Union observer of a complaint, grievance, or appeal action shall be the time necessary to observe the proceedings to their conclusion.**
- d. Reasonable time for the Secretary-Treasurer to file necessary reports to the Internal Revenue Service and to the Department of Labor.**

11.2 UNION TRAINING SESSIONS:

- a. Official Time not to exceed a total of 400 hours per fiscal year may be granted to the Union for use of duly elected or appointed officials of the local including stewards of the Union to enable them to attend Union sponsored training sessions, provided the subject matter of such training is of mutual concern of the government and the technician in his capacity as an organization representative and the Governments' interest will be served by the technician's attendance. In addition 18 hours of official time may be granted to first-time elected stewards for Union-sponsored training. The Union agrees to guard against excessive (NTE 40 hours) of official time for Union sponsored training per Union official per fiscal year. Provided there is a cogent reason why a newly elected official could not utilize his/her 18 hours during the first fiscal year in office, then the individual may use his/her time in the next fiscal year, but as soon as possible.**
- b. Technician Union officials will be excused from technician duties unless mission requirements prohibit such attendance.**
- c. The local president will submit a request for personnel to be excused for Union sponsored training to the Adjutant General, ATTN: NMAG-HR, no later than fifteen (15) days prior to the training session. Exceptions to the 15-day requirement will be considered if based on proper justification. The request will contain the names of technicians, the type and agenda of the training to be conducted and justification that the training will serve the Governments' interest.**

ARTICLE 12 - DISCIPLINARY AND ADVERSE ACTIONS

Determining the appropriateness of a penalty relies not only on establishing factual circumstances but also on application of judgment and discretion. Selection of an appropriate penalty results from a responsible balancing of relevant factors. These factors are discussed in TPR 752, Appendix A, Section A-2. Disciplinary and adverse actions procedures contained in TPR 752 will apply to all bargaining unit employees with the following provisions:

- a. Counseling an employee can normally resolve a problem without the need for disciplinary or adverse action. Counseling is a friendly business like exchange of information guided by the supervisor. It is a private matter between the employee and his/her supervisor and has the specific purpose of improving the employee's knowledge of a particular subject; it is not a disciplinary action. A problem can also be resolved by warning an employee. This too is a private matter between the employee and his/her supervisor and is not a disciplinary action. Unlike counseling, a warning has a more serious intent because along with a business-like exchange of information, is a warning that disciplinary or adverse action may result if the problem is not corrected.
- b. Oral admonishments are not precluded from the grievance procedures. (TPR 752, Para 1-2).
- c. Letters of reprimand which will be filed as temporary documents in the OPF may be retained for a period of 1, 2, and 3 years. (TPR 752, Para 1-3).
- d. If the individual has reasonable doubt that the appointed reviewing official or hearing examiner would not for cogent reason provide an impartial investigation/hearing, the individual may request, in writing, to the HRO, together with any evidence that the reviewing official or hearing examiner should be replaced by another individual. The HRO will study the evidence and advise the Adjutant General.

ARTICLE 13 - PROMOTIONS

13.1 PROMOTIONS:

The procedures established by Technician Personnel Regulation 335 will apply in the promotion and placement of all competitive and excepted bargaining unit employees with the following provisions;

- a. When Management has not made a decision on a reassignment, reinstatement to former grade, employment at entrance level position and other authorized non-promotional personnel actions to fill vacancies within the recognized unit, the Human Resources Office will notify the appropriate steward two weeks prior to the effective date. Those technicians who are interested in being reassigned to the vacancy and who are qualified will be considered.
- b. When Management has made a decision on a reassignment, reinstatement to former grade, employment at entrance level positions and authorized non-promotional actions to fill vacancies within the recognized unit, the appropriate steward will be notified by the Human Resources Office.

- c. Technicians receiving temporary promotion will receive the pay for the position to which temporarily promoted.
- d. Recommendations from the Union will be considered for merit promotion plans and the Union will be consulted prior to any changes.
- e. Vacancy announcements will contain a re-promotion statement.
- f. Vacancy announcements will be opened (posted) for a minimum of 15 calendar days, but normally 21 calendar days.
- g. Positions which can be filled by either Army or Air Technicians may be opened to either Army or Air Technicians, or concurrently to both, depending on regulatory or strength ceiling limitations.
- h. Applicants applying for a position requiring warrant officer status, must submit evidence of eligibility.
- i. Qualified eligible candidates will be certified as follows:
 - On vacancies advertised to presently employed technicians only, all qualified eligible applicants will be certified and referred to the selecting official.
 - Vacancies which are advertised outside of the presently employed technicians, and there are more than 10 qualified eligible applicants, a panel of three or more will screen and evaluate prior to referral.
 - In making a selection the selecting official shall either interview all referred applicants or shall interview none. Interviews shall be either face-to-face or by telephone.
- j. If the employee files a grievance and is represented by the Union, the employee representative shall be permitted to review any and all documents used in evaluating all candidates for promotional purposes. If copies of documents are requested by the Union and, to the extent not prohibited by law, sanitized copies of those requested will be furnished.
- k. Copies of vacancy announcements not to exceed fifteen (15) will be furnished to the Union President by the HRO upon publication.

13.2 TEMPORARY PROMOTIONS: Temporary promotions within the recognized unit may be used to meet situations requiring the temporary services of a technician in a higher graded position. Competitive procedures must be used when the promotion will last for more than 120 days. Whenever practical, temporary promotions made without competition should be rotated among qualified technicians. The minimum practical period for a temporary promotions is 30 days, otherwise Management should use detail to address temporary substitute workload needs. Each occurrence of a higher graded technician's absence should be used to afford other qualified technicians than those previously temporarily promoted, an opportunity for temporary promotion. Management should inform the Union when temporary promotions are made. This notification should be made at the lowest possible level, for example the first line supervisor could discuss it with the Union steward.

13.3 DETAILS:

- a. A detail is the temporary assignment of a technician to a different position for a specified period, with the technician returning to his regular duties at the end of the detail. Details are normally made when a special project or a temporary increase in work load requires the use of additional personnel for a period of time.**
- b. The assignment of additional duties to a position or the assignment of additional duties to fill in for a technician on temporary absence does not constitute a detail as the technician is not temporarily assigned to a different position.**
- c. Whenever practical, details for higher positions under thirty (30) days will be rotated for each period of detail among available and eligible technicians.**
- d. All details of National Guard Technicians will be reported on Standard Form 52 by the supervisor and submitted to the Human Resources Office. Details of over 30 days will be filed as a permanent record in the technician's Official Personnel Folder. Details of less than 30 days will be filed as temporary records on the left side of the Official Personnel Folder.**
- e. Supervisors will record on NGB Form 904-1 appropriate experience obtained by detail or assignment of additional duties that may qualify a technician for promotion or reassignment.**
- f. Management should inform a Union representative when details are made. This notification should be made in advance when possible.**
- g. Contingent upon availability of funds, an employee temporarily placed in an established higher graded position in the bargaining unit in excess of thirty (30) days shall be temporarily promoted if they meet the NGB qualification requirements for the position. If the HRO judges funds not to be available for temporary promotion, they will discuss the situation with the Union.**

ARTICLE 14 - REDUCTION-IN-FORCE

14.1 REDUCTION-IN-FORCE PROCEDURE:

- a. Through careful planning and use of other administrative techniques the Employer will attempt to minimize the adverse impact of a RIF on bargaining unit employees. This agreement and National Guard Bureau regulations covering reduction-in-force procedures will be utilized by Management in carrying out its responsibilities throughout the RIF process.**
- b. The Employer agrees to inform the Union of an impending reduction-in-force affecting bargaining unit employees as far in advance of the RIF notices as practicable. Impact bargaining shall commence upon request of the Union in accordance with Article On Negotiations.**

d. In the event of a RIF, existing vacancies in the competitive area will be utilized to the maximum extent practicable to place bargaining unit employees in continuing positions who would otherwise be separated. In addition adversely affected employees may be considered for vacancies in other competitive areas within the bargaining unit after placement consideration in their competitive area has been completed.

e. Competitive areas will be reviewed at the time the HRO receives notification of an action requiring a reduction-in-force. HRO will inform the Union regarding the proposed competitive areas and the procedure that will be followed as soon as a reduction-in-force is indicated. These will be negotiated if the Union requests negotiations.

- f. At all stages of the RIF process, the Union will have the opportunity to review all applicable job descriptions and retention registers, including any undated or changed job descriptions or registers. In addition, all documents which relate to the need and purpose of the RIF and are legally releasable shall be made available to the Union throughout the RIF process. The Union will render its assistance in communicating to employees the reasons for the RIF through normal representational duties.**
- g. Where it is determined by the Employer that an employee being separated fails to fully qualify for a vacant position at a lower grade for which being considered but has the specialized skills and abilities to perform the duties of that position in a satisfactory manner without undue interruption to the work program, the employee may be placed in the position.**

- k. The Union shall be notified of all individual RIF actions involving bargaining unit employees at least seven (7) workdays prior to the issuance of RIF notices to these employees. This shall be accomplished by affording the Union an opportunity to review RIF placement records prepared by the Human Resources Office. Such records shall include employee's name, grade, job title, and organization, job title and grade of position offered, if applicable; or separation, if applicable.**

14.2 OUTPLACEMENT:

- a. The Employer agrees that in a reduction-in-force of bargaining unit employees, as defined by NGB TPR 351, all applicable existing outplacement programs will be fully utilized, to include full utilization of the DOD Priority Placement Program for bargaining unit employees who are eligible. The primary aim of these programs will be to find a position in the Federal Service for each affected bargaining unit employee.**
- b. The Union and Employer will jointly encourage each employee to see that his/her personnel file and application are up-to-date as soon as a reduction-in-force is announced. The Employer will work with affected bargaining unit employees in registering in existing outplacement programs and assuring that application and Official Personnel Files are current. 20.12 TOOLS: Management agrees to furnish required tools that employees are required to use.

20.13 BREAK/LUNCH AREAS: After considering mission requirements, Management will make reasonable efforts to provide space, as available, for suitable break/lunch areas.

20.14 OTHER DUTIES AS ASSIGNED: The primary reason for requiring the statement "Performs other duties as assigned" on all position descriptions is to establish the principle that the assignment of duties to employees is not limited by the contents of the position description. Supervisors, as agents of Management, are expected to assign other duties as necessary whenever in their judgment the circumstances warrant such action. The objective is to avoid and eliminate the assignment of unrelated incidental duties to positions whenever possible through improved position structuring.

USOPM and NGB have emphasized that position descriptions "reflect" rather than "prescribe" the duties supervisors and managers assign to employees. Within the scope of their delegated authority, supervisors have the right to make work assignments to subordinates. Good personnel Management prescribes that assignments should be reasonably related to the employee's position and qualifications. It is perfectly reasonable, for example, for a supervisor to assign a clerk-typist

the duty of delivering copies of a letter to other offices in the same building even if the employee's position description does not include the statement "delivers copies of letters to other offices." On the other hand, it would obviously be unreasonable for the supervisor to direct the clerk-typist to solve a complex engineering problem, or conduct financial audits.

In emergency situations, of course, duties which might not be reasonably related to an employee's position may have to be assigned.

Also, there are some situations where what might be considered unrelated duties are normally assigned, e.g., skilled mechanics may, in the normal course of their day's work clean up their immediate area.

Keep in mind that what may be an acceptable practice in one situation may be unacceptable in another. The assignment of janitorial work to a skilled technician as an incidental duty would normally be unacceptable, but at a small isolated area, it might be the only logical thing to do. If any "other duties should be assigned with such frequency as to become regularly assigned and they meet the definition of major duties, the position description should be revised. Supervisors should avoid, insofar as possible, assigning additional or incidental duties to employees which are inappropriate to their positions and qualifications. However, an employee's refusal to carry out a legitimate work assignment may be cause for disciplinary action.

The inclusion of the phrase "performs other duties as assigned" in each position description is a mandatory requirement.

ARTICLE 21 - LEAVE AND ABSENCE

21.1 LEAVE AND ABSENCE: Leave will be administered on a uniform and equitable basis, within the scope of applicable laws and regulations. In granting leave, consideration must be given to the needs of the NG and the welfare of the technicians.

21.2 ANNUAL LEAVE: Annual leave may be granted to the maximum amount accumulated or advanced. Annual leave which will be earned during the leave year will be advanced to Army NG technician's leave account at the beginning of the year. Air NG technicians accrue annual leave on a pay period basis. With supervisor's approval, annual leave may be advanced IAW AFM 177-372, on an individual basis. Annual leave provided by law is a benefit and accrues automatically. However, supervisors have the responsibility to decide when the leave may be taken. This decision will generally be made based on mission requirements and not solely on the desires of the technician. Annual leave will be approved unless it adversely affects the capability to perform the mission. Supervisors should insure that technicians schedule their annual leave so as to prevent any unintended loss at the end of the leave year. In the event of conflicting leave requests, the earlier request will have priority. In the event further conflict when requests are made simultaneously, the Service Computation Date established in the appropriate Standard Form 50 will govern. In the event a member is unable to take annual leave as scheduled, he may reschedule the leave following the aforementioned procedures. Annual leave may be used by a technician in lieu of sick leave if requested by the technician and approved prior to charging the absence to sick leave. Such substitution must be made before the time the annual leave otherwise would have been forfeited.

21.3 SICK LEAVE CONTROLS:

- a. Normally sick leave of no more than three (3) consecutive work days may be approved verbally. A medical certificate, Standard Form 71, will be required under the following conditions:

(1) For absences in excess of three (3) work days upon request of the appropriate supervisor.

(2) Whenever the supervisor believes that sick leave is being abused. In such cases the technician will be advised in writing the reason for suspected abuse, and that a SF 71, certified by a physician, will be required to support any future sick leave of any amount until such time as the supervisor feels that the situation has been resolved.

(a) If it is determined that there is an apparent abuse of sick leave by a technician or technicians, Management may ask the Union to join the efforts to alleviate this problem.

(b) The technician who becomes ill, or is injured is responsible for notifying his supervisor as soon as able to. Such notification should be made within the first hour of the next work day when illness or injury occurs during off-duty hours. Leave for prearranged examinations and treatments should always be requested in advance.

21.4 ADVANCING SICK LEAVE: Sick leave, not to exceed 240 hours, (30 days), may be advanced to a technician when supported by a medical certificate describing the illness or injury and the anticipated time of disability. Such requests will be forwarded through channels to TAG. Advance sick leave will not be granted unless all available sick leave will be exhausted before advancement and annual leave, that otherwise would be forfeited, is used and if there is reasonable assurance the technician will return to duty to earn and repay advanced credits.

21.5 COURT LEAVE: Court leave is the authorized absence from work status for jury duty, or for attending judicial proceedings in a non-official capacity as a witness on behalf of a state or local government. If the witness service in a non-official capacity is performed on behalf of a private party, the technicians absence from duty must be charged as either annual leave or leave without pay and he may accept fees and expenses incident thereto. Court leave will be granted IAW the provisions of AGONM Technician Personnel Regulation 630.

21.6 EXCUSED ABSENCE: An excused absence is an absence from duty administratively authorized without loss of pay and without charge to leave. While excused absence is ordinarily authorized on an individual basis, groups of technicians may be excused under certain conditions when authorized or approved by TAG.

21.7 TARDINESS AND BRIEF ABSENCE: Brief absences from duty of less than an hour and tardiness may be excused when the reasons are justifiable to the supervisor. When not justifiable, the absence must be charged to an appropriate leave account. If leave is charged, the technician will not be required to work during leave period, and the supervisor will inform the technician accordingly.

21.8 BLOOD DONATIONS: A technician who makes a blood donation (without monetary compensation) will be excused immediately following the donation for a reasonable time for recuperation (maximum 4 hours). Blood donations should be scheduled by the supervisor so as to minimize the disruption of the work force and insure continuity of essential functions. The excused absence is for the recovery of health of the technician and will not be carried forward or granted on another day.

21.9 VOTING AND REGISTRATION: It is the Employers' policy to excuse technicians for a reasonable time, when practicable to do so without seriously interfering with operations, to vote or register in any elections or in referendums on a civic matter in their community. Generally, a technician is excused from duty so as to permit him to report to work three (3) hours after the polls

open or to leave work three (3) hours before polls close, whichever results in the lesser amount of time off. Under unusual circumstances, a technician can be excused up to a full day.

21.10 CONFERENCE OR CONVENTIONS: A technician may be excused to attend a conference or convention when in the best interest of the NG and when approved by TAG.

21.11 GROUP DISMISSAL: The closing of an activity for brief periods is within the administrative authority of the Adjutant General.

21.12 LEAVE WITHOUT PAY: LWOP is a temporary non-pay status and absence from duty granted upon the technician's request. It does not include days on which the technician is not scheduled for work. The permissive nature of leave without pay distinguishes it from absence without leave, which is a non-pay status resulting from a determination not to grant any type leave (including LWOP) for a period of absence for which a technician did not obtain advance authorization or for which his request for leave on the basis of alleged sickness has been denied.

21.13 AUTHORIZING LEAVE WITHOUT PAY: The granting of leave without pay is a matter of administrative discretion of TAG. Technicians with the exceptions listed below, cannot demand that they be granted leave without pay as a matter of right. Exceptions to this policy are disabled veterans needing medical treatment and Excepted technicians desiring leave without pay for military training duties. Approval of leave without pay will be made only after considering the value to the NG or the serious needs of the individual concerned. Approval of extended periods of leave without pay may be considered in the following situations:

- a. Education, which would result in increased job proficiency and ability.
- b. Recovery from illness or disability not of a permanent or disqualifying nature when immediate return of the technician to duty would impair his health or jeopardize the health of other technicians.
- c. To provide the retention of a qualified technician on the employed rolls pending final action on claim for employment-connected disability or disability retirement. It is the policy of the Employer not to grant leave without pay in excess of one (1) year, except in unusual circumstances or in the furtherance of a program of interest to the Government. Leave without pay of less than thirty (30) days may be approved by the technicians supervisor; however, the Human Resources Office must be advised of all leave without pay, regardless of the length. Leave without pay in excess of thirty (30) days must be approved by the Employer.

21.14 CALL BACK: Unscheduled call back work performed by an employee on a day when work was not scheduled for him, or for which is required to return to his place of employment, is deemed at least two (2) hours in duration.

21.15 COMPENSATORY TIME OFF FOR RELIGIOUS OBSERVANCES:

- a. An employee whose personal religious beliefs require the abstention from work during certain periods of time may elect to engage in overtime work for the time lost for meeting those religious requirements.
- b. To the extent that such modifications in work schedules do not interfere with the efficient accomplishment of an agency's mission, the agency shall in each instance afford the employee the opportunity to work compensatory overtime and shall in each instance grant compensatory overtime and shall in each instance grant compensatory time off to an employee requesting such time off for religious observance when the employee's personal religious beliefs require that the employee abstain from work during certain periods of the workday or workweek.

c. For the purpose stated in (b) above, the employee may work such compensatory overtime before the grant of compensatory time off. Compensatory overtime shall be credited to an employee on an hour for hour basis. Appropriate records will be kept of compensatory overtime earned and used IAW AGONM TPR 630.

d. An agency is expected to accommodate an employee's request to work compensatory overtime. If no productive overtime is available to be worked by the employee at such time as he or she may initially request, alternative times should be arranged for the performance of compensatory overtime work.

21.16 WAGE SURVEYS:

a. The Employer recognizes the value of the contributions that can be made by its employees in conducting wage surveys, and will continue to seek the benefits which accrue from keeping the employees informed on wage matters.

b. The employer agrees to notify the Union promptly after receipt of a notification of a pending wage survey from DOD.

c. Due consideration will be given to selecting Unit members who have job experience and who meet the necessary qualifications as data collectors. Data collectors will be on official duty status.

21.17 ANNUAL LEAVE AND VACATION:

a. Although annual leave is a right of a technician in that its accrual may not be denied, it is the prerogative of Management to make the final decision on when leave is to be used. Special consideration will be given emergency situations.

b. All technicians are encouraged to take an annual vacation of at least eighty (80) hours. Technicians shall submit requests to their supervisors for annual vacations by 31 March each year for the ensuing year. Technicians and supervisors must give considerations for IG, ORI's, AFT and other events annually scheduled. For this scheduling of an annual vacation, priority will be given:

- (1) Senior technicians, by their computation date.
- (2) Technicians who will lose leave because of the maximum accumulation of 240 hours of annual leave.

c. In granting annual leave other than the schedule of annual vacations in paragraph b above, the supervisor will consider the date of the request and the workload of the activity.

ARTICLE 22 - PERFORMANCE STANDARDS AND EVALUATIONS

22.1 AUTHORITY: The performance appraisal system shall incorporate all requirements of National Guard Bureau TPM 430.

22.2 DEVELOPMENT OF PERFORMANCE STANDARDS AND CRITICAL ELEMENTS: The development of performance standards and identification of critical elements will be a joint effort between the employee and his/her supervisor. These elements should be fair and equitable and consistent with the position description of the job. Employees and the supervisors shall meet at least once a year to discuss the performance standards and critical elements to be applicable for

the coming rating year. The standards and identified critical elements shall be put in writing and signed by the employee and supervisor. Further amendments may be made during the rating year and these amendments shall be noted with the parties signatures. If there is no agreement on the standards or critical elements, the supervisor will decide.

22.3 OFFICIAL APPRAISAL: To have an objective appraisal, the employee will work for the appraiser not less than 120 days. When this is not the case, an officially approved performance appraisal on file will be the one used.

22.4 APPLICATION:

a. The appraisals given employees by their supervisor shall be objective and the critical elements and performance standards shall be fairly and equitably applied. If the employee believes the above criteria has not been met, he/she may grieve through the negotiated grievance procedure. All appraisals shall be prepared in accordance with the following:

- (1) The supervisor will discuss the employee's job performance with the employee in private surroundings at least annually or more often as required. Performance will be appraised on a continuing basis and technicians will be kept abreast as to how their performance compares to the established performance standards.
- (2) If the supervisor has identified shortcomings in the employee's performance, the employee shall be notified when the problem is perceived. The supervisor will suggest ways for the employee to improve the quantity and quality of work in order to more satisfactorily perform duties at expected levels.
- (3) The annual performance appraisal will be in written form. All performance appraisals will be reviewed and approved by a rating official. A follow-up discussion between the employee and the rating official may be held prior to final approval of the evaluation.

22.5 WITHIN GRADE INCREASES:

a. Prior to the date an Employee is eligible for a within grade increase, the immediate supervisor will review the work of the employee. When a supervisor's review leads to the conclusion that the employee's work is not at an acceptable level of competence, the supervisor will notify the employee in writing at least sixty (60) days before the employee is eligible for the within grade increase, the following:

- (1) An explanation of those aspects of performance in which the employee's service falls below an acceptable level.
- (2) Advice as to what the employee must do to bring his/her performance up to the acceptable level.
- (3) A statement that his/her performance may be determined as being at an unacceptable level unless improvement to an acceptable level is shown.
- (4) A statement that he/she has a period of not more than sixty (60) calendar days in which to bring his/her performance up to an acceptable level.

b. If the employee's performance becomes acceptable, the within grade increase will be granted. If the employee's performance has not improved, the supervisor will notify the employee in writing that the within grade increase will not be granted and will inform the employee of his/her right to file a timely grievance.

- c. The procedures outlined for granting or withholding a within grade increase will also apply to upward mobility promotions or the upgrading of employees in positions with known promotion potential.

ARTICLE 23 - UNACCEPTABLE PERFORMANCE AND APPRAISAL APPEALS

23.1 UNACCEPTABLE PERFORMANCE:

a. **Actions Based On Unacceptable Performance:** Technicians will be periodically reminded of the critical job elements and expected performance standards for their positions, and will be informed when their performance is unacceptable in any element of the job. Technicians will be assisted in improving areas of unacceptable performance by counseling, increased supervisory assistance, additional training, etc. However, if the technician's performance in any critical element continues to be unacceptable following efforts by the supervisor or manager to improve performance, the technician must be reduced in grade (demoted) or removed from employment. Before initiating an action to reduce in grade or remove a technician based on unacceptable performance, consideration will be given to reassignment to another position for which the supervisor feels the technician is qualified. No action based on unacceptable performance may be taken until critical job elements and performance standards have been identified in writing, the technician has been given a copy of these standards, and the technician has been given an opportunity to improve his/her performance.

b. **Requirements:** An action to reduce in grade or remove from employment may be initiated anytime by the technician's supervisor if the technician's performance continues to be unacceptable in one or more critical job elements despite previous counseling and responsible training efforts by the supervisor. The supervisor does not need to wait until the end of the appraisal period to initiate these actions. A technician against whom such an action is planned is entitled to:

(1) A minimum thirty (30) day advance written notice of the actions to be taken (reduction in grade or removal), which identifies the critical job element(s) and instances of unacceptable performance on which the action is based. This advance written notice must be concurred in by an official who is in a higher position than the immediate supervisor. (This requirement does not apply when the action is being taken by the State Adjutant General). This is not a proposed notice, but is to be considered as a final notice of the action to be taken because before this final step the technician would have been given adequate assistance and time to improve performance.

(2) An opportunity to answer orally or in writing to the supervisor or appeal to the State Review and Appeals Board. At the discretion of the State, the effective date of separation or a reduction in grade may be extended awaiting final decision of the board.

(3) If a technician submits a request to his/her supervisor to change an unacceptable performance appraisal, the supervisor will carefully review this information and advise the technician in writing whether the unacceptable performance appraisal is sustained or will be changed. A request submitted to the State review and appeals board will be handled in accordance with instructions in Article 23.4.

c. Unacceptable Performance Related to Alcohol or Drug Abuse: Unacceptable performance related to alcoholism or drug abuse must be handled first in accordance with TPS 792-2, and AGONM TPR 792, and Article 20.9.

d. Records:

(1) Action Taken: When such an action is taken against a technician all relevant documentation will be placed in an envelope and filed in the technician's OPF.

(2) Action Not Taken: When an action is not taken, all documentation relating to the unacceptable performance appraisal will be assembled and placed in an envelope and filed in the technician's OPF. If the technician's performance continues to be acceptable for a period of one year from the date the original action was initiated, the contents of the entire envelope must be destroyed and all entries or other notations of unacceptable performance must be removed from all records.

e. The employer will consider deferring the action based on unacceptable performance for those individuals who provide written medical certification of disability and have filed for disability retirement.

23.2 PERFORMANCE APPRAISAL APPEALS: Bargaining unit employees may pursue performance appraisals not acceptable to them through the appellate procedure provided in AGONM TPR 430.

23.3 FILING AN APPEAL:

a. Performance Appraisal Review and Appeal Board: The Adjutant General will establish, as necessary, a performance appraisal review and appeals board consisting of at least three members to provide an impartial review on performance appraisal appeals. Members serving on this board should not be in the chain of command of the technician who is filing the appeal and should not be in a lower graded position than the technician appealing. The technician is entitled to representation during the board process.

b. When To File An Appeal: A technician desiring to file an appeal of a performance appraisal, other than for unacceptable performance, may file an appeal to the State review and appeals board no later than thirty (30) calendar days after the technician receives the appraisal. An appeal based on an unacceptable performance must be filed within the thirty (30) day advance written notice period outlined in AGONM TPR 430.

c. In reviewing performance appraisal appeals including unacceptable performance, the board by majority vote will recommend to the Adjutant General to change the appraisal as requested by the technician or sustain the appraisal without change. When reviewing unacceptable performance appraisals, the board will only be concerned with the unacceptable appraisal. The Adjutant General will make the final decision. All members of the board must be present at all times during the hearings, and must participate in deciding on a recommendation. A technician has no appeal rights beyond the State Adjutant General.

d. Appeal Processing: An appeal to the board is submitted to the chairperson. The written request should be in a letter format and should contain the following information:

- 1. Name of the technician.**
- 2. Organization.**
- 3. The appraisal being appealed.**

4. Why the appraisal should be changed.
5. Date notice received.

When all the necessary information is not available, the technician should submit what is available, and state why the other information is not available. The board immediately sends one copy of the appeal request to the HRO.

The written request should be addressed to the following address:

Chairman
New Mexico National Guard Review and Appeals Board
ATTN: NMAG-HR
47 Bataan Blvd.
Santa Fe, New Mexico 87505

e. Board Procedures: During the proceedings, the board may admit testimony from the technician or the technician's immediate supervisor. Within fifteen (15) calendar days, the board will review and submit their recommendations directly to the Adjutant General with an information copy to the HRO. The technician and the technician's representative (if desired by the technician), and the representative of the Adjutant General will submit information the board deems pertinent. Such information may be presented orally, by presentation of witnesses or in writing. In the submission of evidence both oral and written may be submitted to reach a decision, as long as the technician, the technician's representative, and the representative of the Adjutant General are given the opportunity to hear, examine, and reply to the information submitted by the other parties, and are given the opportunity to question the witnesses. If any of these individuals are absent during the oral presentation, the absentee(s) must be furnished in writing any evidence admitted during their absence. The board may not use any written information to render a recommendation until the technician, the technician's representative (if any), and the representative of the Adjutant General have had an opportunity to examine and reply to it. Board members must serve as impartial judges and review each case objectively. They must give consideration to the merits of each case and secure all necessary information. The board may not receive or consider information not directly related to the matter being considered.
